# PLATINUM GMT™ DERMO SYSTEM CLOUD

## SPECIFICATIONS

### MICRODERMOABRASION

**SUCTION POWER:** Variable from 0 to 0,60 MPa

### OXYGEN:

**FILTERED:** Three stages and anti-bacterial

**REFRIGERATION:** Two phases

**OXYGEN OUTPUT:** Max. 10 Lpm

**PURITY:** 92% +/- 5%

**OUTPUT PRESSURE:** 0,8 bar

### ULTRASOUND:

**OPERATING FREQUENCY:** 3 MHz

**OUTPUT TYPE:** Continuous or pulsated

**OUTPUT POWER:** Variable from 0 to 10 W

### COLD/HOT HAMMER:

**POWER:** Variable from 1 to 5 steps

**TEMPERATURE:** Min. 5°C / max. 40°C

### GENERAL:

**NOISE LEVEL:** < 55 dB

**WEIGHT:** 40 Kg

**DIMENSIONS:** 115 cm x 35 cm x 48 cm

### ELECTRICAL

**REQUIREMENTS:** 220/230V 50Hz 4A

110/120V 60Hz 8A

## SUPPLIES

- PLATINUM GMT™ DERMO SYSTEM CLOUD
- CASE WITH 9 DIAMOND TIPS, CONNECTIONS, FILTERS, 3 HAND PIECES FOR MICRODERMABRASION
- 3 ULTRASOUND HEADS (SHAPED FOR EYES, FACE, AND BODY)
- COLD AND HOT HAMMER
- AEROGRAPH
- CONNECTION HOSES
- HUMIDIFIER
- WI-FI CONNECTION ACCESSORIES FOR GMT CLOUD SYSTEM
- USER MANUAL AND WORK PROTOCOL
- TRAINING COURSE AND CERTIFICATES

## APPLICATIONS

**MICRODERMABRASION:** effective in reducing fine lines, crows feet and expression lines; clears age spots and minimizes acne scars. Ideal for facial cleansing, with abrasion and suction that eliminate skin impurities such as blackheads, which encourages transpiration.

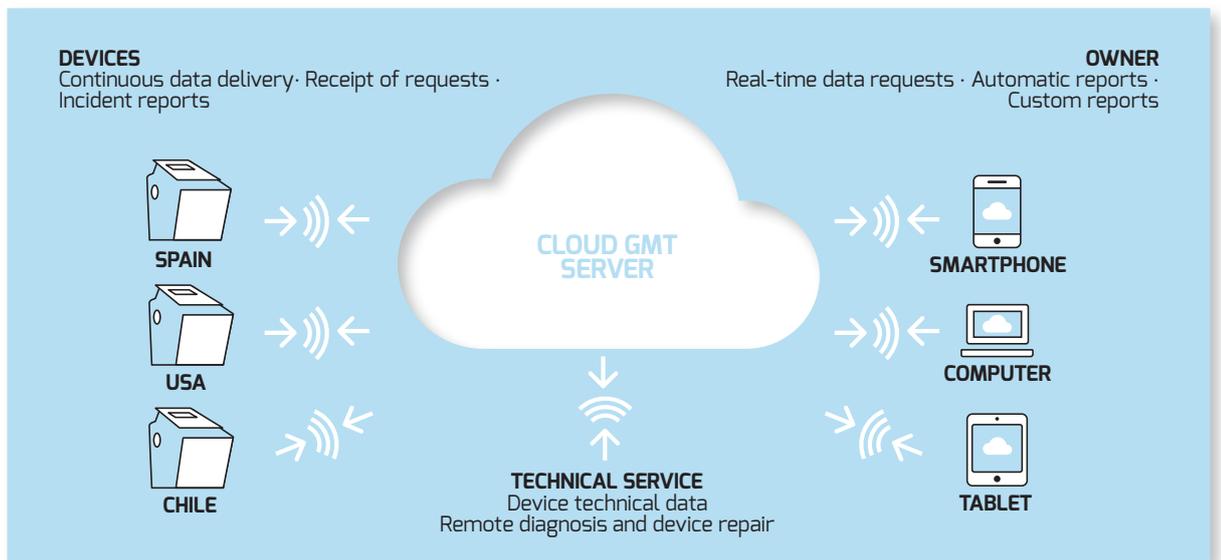

**ULTRASOUND:** Indicated for localized weight loss and stretch marks. Diminishes bags under the eyes. Beautifies skin.

**OXYGEN THERAPY:** Highly effective to renew skin cells. Promotes collagen re-growth and production of resistant proteins. Eliminates all types of microorganisms, improving elastic fibers and contributing to toned and firm skin.

## PLATINUM GMT™ DERMO SYSTEM CLOUD IDEAL SKIN CARE

**Platinum GMT™ DERMO System Cloud**, is a multifunction machine that joins microdermabrasion and ultrasound with a latest generation oxygen system that has achieved a **wide range of applications for the most complete and effective skin care**.

Its nine diamond tips and three ultrasound heads allow for facial and body treatments, with a specific set for the eye area. The cold/hot hammer acts as a calming, complementary agent after microdermabrasion, as a supplement to complete facial treatments. In addition, it features a remote connection through the Internet for productivity and technical monitoring (**GMT Cloud system**).

### CLOUD GMT REMOTE CONTROL SYSTEM

The **Platinum GMT™** Series features the exclusive Cloud technology with **remote control system**. Cloud GMT incorporates **operation transmission data** from the devices to the cloud (Cloud Computing) for a **complete centres management**. This allows the business owner to access the system from any Internet connected gadget (computer, tablet, Smartphone) and see in real time the work being done at the centre without the possibility of errors or data manipulation as it accesses the machine directly.

The **Cloud GMT** system also allows our **customer service** to carry out **preventive checks** that may **troubleshoot malfunctioning devices remotely** or anticipate computer updates, **reducing downtime due to repairs**. Having real-time warnings of any incident or malfunctioning can be taken care of immediately.

Cloud GMT uses a **web application** developed exclusively to manage each device. The user can access the device with the appropriate passwords and **download any information to a Internet connected gadget**.

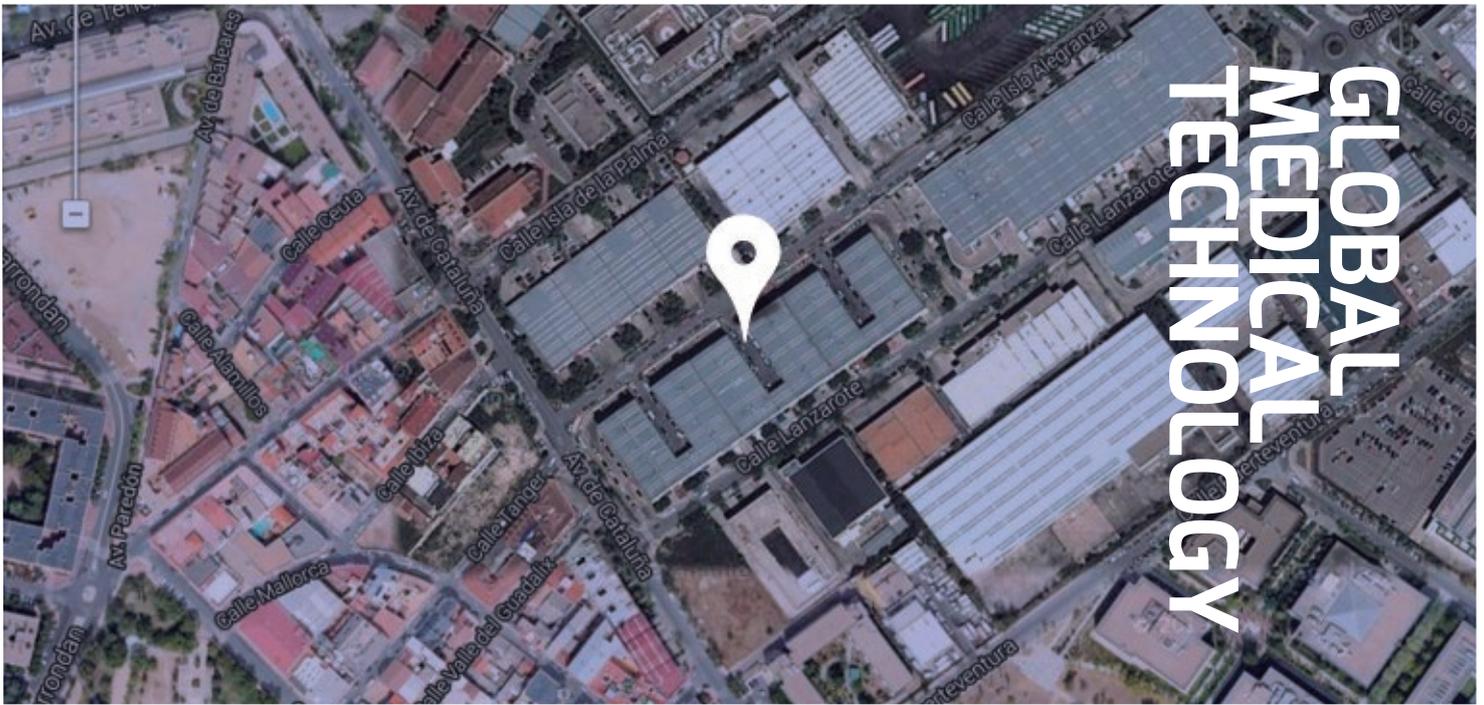

In addition to **automatically generating and sending periodic reports** of each session; it allows the user **to setup any alarms** regarding different device performance indicators such as: power, temperature, frequency and others. It can also **generate information about the clinic** use of the devices (number of pulses per area, sessions per day, etc.), sending warnings to responsible parties if the parameters are outside set ranges. This information comes to the owner's cell phone automatically, allowing you to have **complete control of your business from anywhere in the world at any time**.

- > Maximum / minimum billings.
- > Information about workers and customers.
- > Excess time used by an operator in a session.
- > Turning on/off the device when it should not be in use.
- > Ability to prepare custom-made reports.

GMT is the only company that offers this technology.

# GLOBAL MEDICAL TECHNOLOGY

## COMPANY

Global Medical Technology, LLC (GMT) began operations in 1998 in the field of aesthetics, specializing in the **development, marketing and maintenance of equipment intended for hair removal, weight loss and skin treatments using non-invasive methods.**

GMT manufactures and distributes **leading aesthetics devices**, according to each country's standards. GMT represents a **quality benchmark at a competitive cost** distinguished by **unique developed systems.**

The constant investment in Research and Development makes the **Platinum GMT™ Series** one of the **most well-known and technologically advanced devices** in the world. Over 1,500 cosmetic clinics in different countries use GMT devices.

## GMT COMPETITIVE ADVANTAGES

- > **Proven Results.** Many years on the market and the large number of clinics using our technology prove that the quality of our devices is higher compared to other manufacturers.
- > **Exclusive GMT Cloud technology** allows owners full remote control of the treatments at each clinic (sessions, schedules, operators...), accessing the system in real time from anywhere via Internet-connected devices. It also allows GMT customer service to monitor the equipment. This helps prevent possible breakdowns and facilitates online repair when needed, reducing downtime of the device.
- > **The GMT Department of Education trains and certifies all personnel** in charge of providing aesthetic services, and answers treatments related questions. This ensures that no competitor will have the same level of service, knowledge or attention to their customers.
- > **Treatment Speed.** Compared to similar devices currently in the market, GMT's have the highest performance pulses per minute and treatments spot size, ensuring the most efficient service.
- > **High performance.** Its unique cooling system with sapphire crystals allows these devices to be working for hours without overheating.
- > **Easy to use.** Its proprietary and intuitive software automatically calculates all parameters in just three steps.
- > **Computer Monitoring.** To keep both users and clients records.
- > **System Upgrades.** Allows clinics using these devices to ensure appropriate technological responses to competitors' improvements.

## TECHNICAL SERVICES

- > Ongoing training and counseling
- > Cloud GMT Service: remote control of the devices
- > Warranty
- > Sale of parts and accessories guaranteed
- > Technical Services Contracts
- > GMT-business owner coordinated operation of the devices
- > Maintenance and infrequent repairs

**Global Medical Technology** has its own **technical service** so that in case of breakdown customer response is immediate and in most cases the problem fixed in less than 24 hours after.
